Moses Cone Health System proposes expansion of Wesley Long Cancer Center

RALEIGH – Moses Cone Health System-Greensboro has filed an application with the Certificate of Need Section of the N.C. Division of Health Service Regulation to expand the system's Regional Cancer Center on the campus of Wesley Long Hospital.

A public hearing for this project will be held at 1 p.m. on July 18 at the Kernersville Town Hall Building, Council Chambers Courtroom, 134 E. Mountain St.

The Moses Cone Health System Regional Cancer Center provides chemotherapy, radiation therapy, nutritional services, dental oncology, patient support services, community education and professional conferences. The proposed \$15-million project will result in a 20,000-square-foot, two-story addition. The additional space will allow for renovation of 18,000 square feet and provide better patient flow and enhance staff work areas. The project does not include the acquisition of any major medical equipment and is scheduled for completion around April 2010.

Anyone may file written comments concerning this proposal. Comments must be received by the Certificate of Need Section no later than July 1 at the following address:

Certificate of Need Section
